Imprints in our Luminous Energy Field (LEF) can be generational, cultural, inherited or trauma based.

When an imprint is activated, it hijacks our nervous system, and we tend to repeat the behaviors we did at the initial time of the imprint.

By working at the level of energy we can find the origin of these beliefs & incidents. We clear the imprint through the chakra and upgrade the quality of information in our Luminous Energy Field to stop replaying and living out the stories.

It is my great honor to hold space for your healing and transformation.

When to make an Energy Medicine appointment?
